PRESS RELEASE – Thomas T. Wittman (609) 261-0606, Wittman Construction – FOR IMMEDIATE RELEASE

WITTMAN CONSTRUCTION COMPLETES COMMERCIAL CONSTRUCTION IMPROVEMENTS OF OVER ONE MILLION DOLLARS FOR COMPANIES MOVING TO PENNSAUKEN, NJ

Charles J Becker & Sons was represented by Francis Mahoney of Cushman & Wakefield for the purchase of 1500 Melrose Highway in Pennsauken for 4.1 million dollars. The +/-127,000SF building was originally constructed in 1977. Becker engaged Wittman Construction to provide single point of contact build-to-suit improvements that included 9,000SF of new office space, 27-tons of new heating and air conditioning equipment, fire protection revisions, ADA compliance upgrades, and major electrical work. From design to permitting through construction to occupancy all factions of the project were completed under Wittman's full umbrella of services within a four month time frame. Becker & Sons, an 80- year old school supply company, moved their business from Northeast Philadelphia.

Advanced Abrasives Corporation contracted Wittman Construction to build office improvements at their building located at 7980 National Highway in Pennsauken. The upgrades, designed by Ryan Day of Eric Hafer & Associates Architects, included manufacturing areas, mechanical upgrades, new glass and canopy façade, and 3,500 square feet of office space. Finishes included (2) executive offices, conference room, high-end reception lobby, kitchenette, general office, and office area toilet rooms. Advanced Abrasives is a rapidly growing manufacturing and processing base for wet and dry diamond powders, compounds and slurries that provides state-of-the-art superabrasive products. Wittman Construction provided the quick occupancy required by Advanced Abrasives completing the construction for move-in within 90 days.

Wittman Construction is a full service commercial construction company providing new buildings, renovation, additions, tenant fit-out, and facility maintenance and repair.
